

Accessing Read & Write (for windows) at home

If you have a laptop or windows computer at home you will be able to download the full windows version of Read&Write.

1. Open the google chrome web browser.

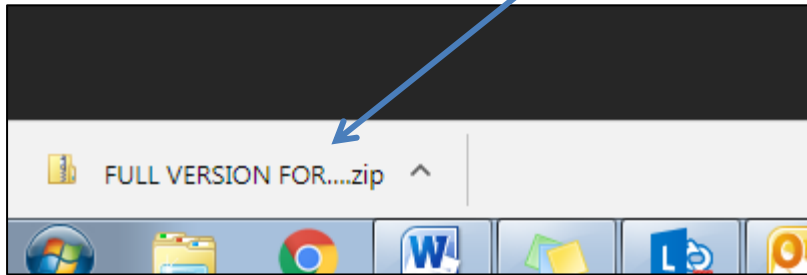

2. In the address bar at the top type in this URL: <http://bit.ly/2suwUAu>

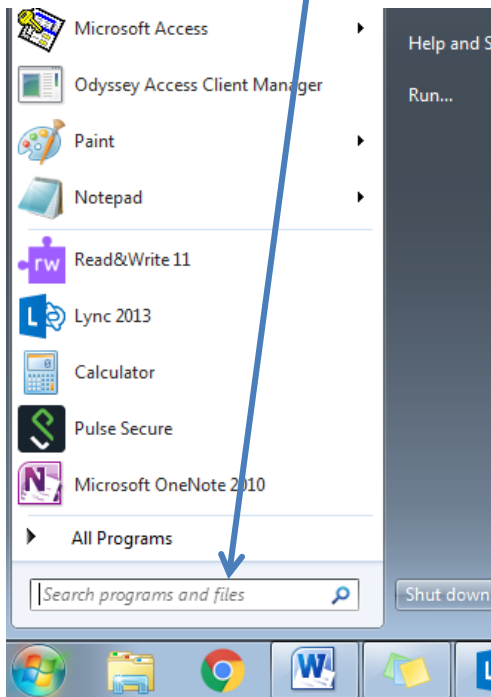

3. On the page that opens, double click on the Setup.exe **OR** on the downward facing arrow on the top right of the page.

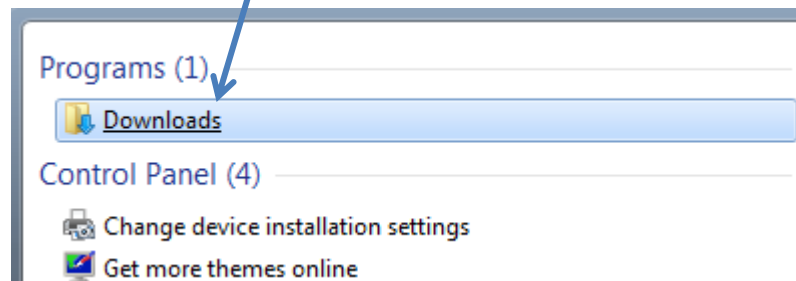

4. After a few seconds, at the bottom left of your screen you should see the folder has been downloaded. Click once on the folder to open it.

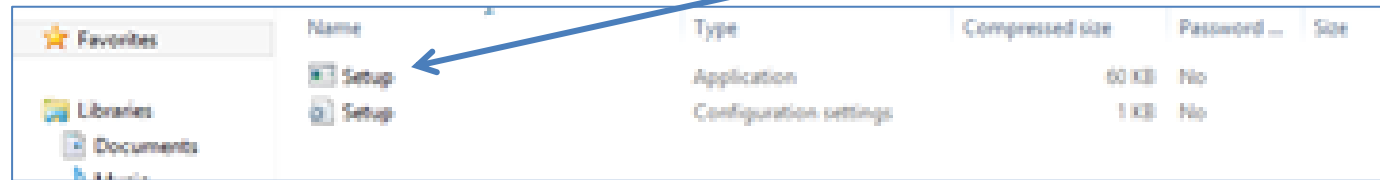

Please note: If you don't see the folder at the bottom of your screen it will be in your **downloads** folder. Click on the start icon  on the bottom left of your screen, and in the search box type in 'downloads'.

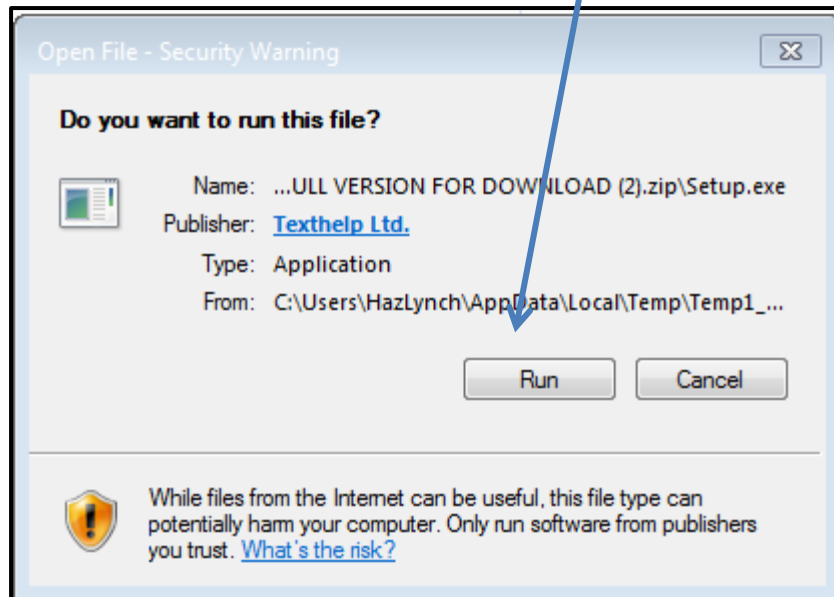

Click on the Downloads folder that appears in the list:

5. In the folder that opens there are two files. Double click on the file named setup.

6. You may see the window below appear. Click on Run.

7. The files for the program will now be downloaded from the texthelp website. Follow the onscreen prompts to install the full application.

8. If at any point you are asked to 'Activate' the program, usually when it is started for the first time, click on 'Activate Now'.
